

BARLEY, SPRING - CERTIFIED

KEWAUNEE

Kewaunee is a six-rowed, smooth-awned variety that was released by the University of Wisconsin-Madison in 1997. Kewaunee is very high-yielding as shown in Wisconsin statewide trials. Kewaunee has good test weight, lodging resistance, and resistance to leaf rust, stem rust, powdery mildew and stem blotch. Kewaunee heads about the same time as Chilton, and is approximately the same height as Hazen and Robust. Kewaunee is a feed barley.
